

In regards to the issue of cell-phone use on airplanes:

I am a United Airlines flight attendant who finds passengers more and more difficult to deal with when it comes to their electronics. The FCC's consideration of more use of cell-phones on aircraft is ridiculous. Not only does it delay flights and put flight attendants in jeopardy, but it is EXTREMELY annoying. I am tired of the "I am the center of the world" mentality that continues to thrive and is perpetuated by the FCC's proposal. Please DESIST! Thank you. Sincerely, Heather Bowers ORDSW  
United Airlines
